To whomsoever it may concern

This is to inform you that **Mohit Malani**, a student at Kolhapur Institute of Technology's College of Engineering, has served as a **Developer Student Club Lead** for the academic year 2017-18.

The Developer Student Clubs (DSC) is a Google Developers program for university students who are passionate about growing developer communities. Google supports them with starting student clubs on their campuses. The DSC Leads provide students with the opportunity to:

- Grow their knowledge on developer technologies and more through peer to peer workshops and events.
- Gain relevant industry experience by solving problems for local organizations with technology-based solutions.
- Showcase their prototypes and solutions to their local community and industry leaders.

During the 2017-18 academic year, the DSC Leads worked in the following areas:

- Host and organize events & workshops to increase skills in areas of Mobile App Development, Web Development & Actions on Google.
- Work with Local organizations to identify issues which could be resolved using Mobile applications & get these applications developed by the students in their Clubs.

DSC Leads participate in a full-fledged, relevant training during their tenure. This provides them with skills that include planning and organizing events in addition to leadership, presentation, communication and time management skills.

In case of questions, please do not hesitate to reach out to us.
